The American Consul General
Casablanca.

Dear Sir,

I have already written to you on several occasions on behalf of Leon and Herman Dajcz the two refugee lads who are staying with us. I am taking the liberty of asking you once again if you can help them to get away to the United States to join their parents. I am hoping that recent events here in Morocco, will have made it easier for you to help them. They have heard of a boat leaving shortly with children for the United States. If this be so would it not be possible for you to arrange for them to get away with it? I trust that at last you will be able to do something definite for them.

Yours sincerely

(Signed) James Barkey
