Dear Dr. Wyss-Dunant,

Many thanks for your kind letter of
December 4th.

The information which you have given
me is most valuable, and I hope that, by the time
you return to Morocco, the camps situation may be
considerably improved. I am having frequent
conferences with American and French Officials, and
I have real hopes that a satisfactory solution will
be worked out in the near future.

I received the International Red Cross
message sheets, and I am sure they will be useful.

I am indeed sorry that I was so pressed
for time on the day when you so kindly called on me.
When you next come, be sure to plan for lunch or dinner
with me at least.

Yours very truly.

Leslie O. Heath.
