

Casablanca, October 13th 1942.

Mr. Bagby,
American Consulate,
CASABLANCA.

Dear Mr. Bagby,

I enclose herewith a list of medical supplies which Dr. Gaud says are utmost importance for the camps at the present time.

I believe that through an oversight quinine was omitted from this list, and I have accordingly written to Rabat to verify this point, in which case I will add the required amount of quinine to the list by cable, as I have already sent the request to Philadelphia by air-mail.

Many, many thanks for your kind help in so many ways.

Sincerely,

Leslie G. Heath.
